

# The AusAlert™ national test

Monday 27 July 2026

## AusAlert starts in October 2026.

It alerts people about emergencies.

In an emergency, alerts go to some smart phones, smart watches and tablet devices.

## Everyone in Australia may get the national test.

Testing will make sure AusAlert is working.

The national test is on **Monday 27 July 2026**.

## This is only a test.

The test alert may make your device show a message, play a sound and vibrate.

This is just a test. If you get one, you do not need to do anything.

## It may be loud.

If you do not want the alert, turn off your device or turn on aeroplane mode before the test.

Leave your device off for at least 1 hour.
